Lighting selection

Planning reference / not an installation manual or binding policy

01 / Confirm measured lumens, input power, beam pattern and intended mounting height.

02 / For solar models, verify panel wattage, battery voltage and watt-hours; do not use marketing wattage alone.

03 / Check control modes, sensor coverage and dimming/runtime conditions.

04 / Verify ingress protection evidence, mounting, wind exposure and environmental suitability.

05 / Request a lighting plan and model-specific datasheet, manual and applicable certificate.

This checklist does not establish product performance, compliance, supply or warranty commitments. Confirm exact-model parameters and contract terms in writing. Installation requires qualified professionals, the approved manual and local requirements.

照明产品选型

规划与沟通参考 / 非安装手册或正式政策

01 / 确认实测光通量、输入功率、配光及安装高度。

02 / 太阳能型号需核实太阳能板功率、电池电压与瓦时，勿仅凭宣传瓦数选型。

03 / 核对控制模式、感应范围及调光与续航条件。

04 / 核验防护等级依据、安装结构、风环境与使用环境适配性。

05 / 索取照明方案与具体型号的规格书、手册及适用证书。

本清单不构成产品性能、合规性、供货或质保承诺。具体参数与合同条款需逐型号书面确认。安装应由合格专业人员依据正式手册与当地要求实施。
