Energy storage selection

Planning reference / not an installation manual or binding policy

01 / Confirm rated and usable energy, voltage, chemistry and operating limits.

02 / List continuous loads, startup peaks and desired backup duration.

03 / Match inverter voltage range, communication protocol and approved compatibility.

04 / Check installation environment, protection, ventilation and local electrical requirements.

05 / Request the exact-model datasheet, manual, transport documentation and applicable compliance evidence.

This checklist does not establish product performance, compliance, supply or warranty commitments. Confirm exact-model parameters and contract terms in writing. Installation requires qualified professionals, the approved manual and local requirements.

储能产品选型

规划与沟通参考 / 非安装手册或正式政策

01 / 确认额定与可用能量、电压、电芯体系及工作限制。

02 / 列出持续负载、启动峰值与目标备电时长。

03 / 核对逆变器电压范围、通讯协议与兼容性清单。

04 / 核对安装环境、防护、通风及当地电气要求。

05 / 索取具体型号的规格书、手册、运输资料与适用合规证明。

本清单不构成产品性能、合规性、供货或质保承诺。具体参数与合同条款需逐型号书面确认。安装应由合格专业人员依据正式手册与当地要求实施。
